

# Q: Can I add additional items like “Shop Supplies” to the installed price?

Last Modified on 06/21/2017 11:39 am EDT

A: Virtual Counter does not currently have this functionality. However, we are planning to have it added by mid-2016. This will allow you to add the cost of these additional items that may be needed for the installation, instead of compensating for their cost by increasing your labor time.
